DETAILED ACTION

Response to Amendment

1. Applicants' amendment filed November 12, 2004, has been entered and made of record.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

The instant invention recites an image processing computer system for a photogrammetric analytical measurement using a picture of an image of a target having at least three main reference point areas and an assistant reference point area. Positions of the main and assistant reference point areas are determined with respect to a two-dimensional picture coordinate system defined on the target. Subsequently, positions of the main reference point areas are calculated with a three-dimensional camera coordinate system defined on a camera that photographs the picture. Two-dimensional positions of the main reference point areas and camera parameters are calculated with respect to a two-dimensional image-plane coordinate system, defined on an image-plane of the camera, based on the calculated three-dimensional positions of the main reference point areas, camera parameters including a position and a direction of the camera.

The invention further calculates a three-dimensional position of the assistant reference point area with respect to the three-dimensional camera coordinate system based on the calculated camera parameters, and a two-dimensional position of the assistant reference point area with respect to the two-dimensional image-plane coordinate system based on the three-dimensional position of the assistant reference

point area. A determiner determines whether the camera parameters are correct by comparing the two-dimensional position of the assistant reference point area with respect to the two-dimensional picture coordinate system with the two-dimensional picture coordinate system with the two-dimensional position of the assistant reference point area with respect to the two-dimensional image-plane coordinate system.

Claims 2, 4 and 6 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
